

8:30 AM Registration Opens.

9:15 AM Welcome by President Yong, EVC President at **Registration**.

<http://svcc.mobi> (Mobile Site)

Please join us for coffee and visit our sponsors. Sponsors will have snacks and drinks all day.

9:45 AM Saturday

- A Machine Learning Primer **Antony Ross** Room: Gullo II
- Break the: "IF You Build it They Will Come" - facade **Kevin Steineman** Room: C101B
- Building a Java-based RESTful Service and Running It in a Docker Container **Bruno Terkaly** Room: SC-127
- Concurrency is child's play! (Powerful, Naïve, and full of "Oops!") **Nuri Halperin** Room: R1-302
- Create Influence, On Demand **Bernie Maloney** Room: C209
- Demystifying DevOps **Mark Lavi** Room: S-160
- Developing Microservices with Aggregates **Chris Richardson** Room: RF-141
- Future Proof your SharePoint Applications **Ramona Maxwell** Room: C101C
- Go for Java Developers **Ted Young** Room: C102
- HoloLens Development 101 **Livi Erickson** Room: RG-122
- Honey pots, Cybercompetitions, and Bug Bounties **Sam Bowne** Room: RG-248
- IoT Black Box **Robert Roeder** Room: R2-222
- Overview of Azure Storage **Robin Shahan** Room: C104
- Practical Performance Tips and Tricks to Make Your HTML/JavaScript Faster **Doris Chen** Room: S-140
- Release Management with Team Services **Paul Hacker** Room: C103
- So you want to be a data scientist? **Andrew Moll** Room: S-150
- The Post Javascript Apocalypse **Douglas Crockford** Room: VPA-Theater
- Token Authentication in ASP.NET **Nate Barbettini** Room: RE-311

11:15 AM Saturday

- Productive TypeScript and React with WebStorm **Paul Everitt** Room: S-160
- Amazing new features in JavaScript **Manoj Kumar** Room: SC-127
- Apple & Google Native Mobile Development **Siamak Ashrafi** Room: R1-302
- Azure Storage Security **Robin Shahan** Room: C104
- Building Bots with Watson Conversation **Stefania Kaczmarczyk** Room: S-140
- Code Reviews: The #1 Way to Improve Code Quality **Craig Berntson** Room: RG-122
- Cordova GoogleMaps plugin for iOS and Android **Masashi Katsumata** Room: C101B
- Hacking Fitness with the Mean Stack **Daniel Egan** Room: RE-311
- Introduction to the Microsoft Bot Framework **Joe Mayo** Room: RG-248
- Keys to Exceptional Product Team Performance **Ron Lichty** Room: S-150
- Machine Learning Exposed! **James Weaver** Room: Gullo II
- Mastering VSCode: Building your first extension **Jason Poon** Room: C103
- Modularizing Features for Rapid Independent Deployment **Mohit Goenka** Room: R2-222
- MongoDB in Production **Daniel Coupal** Room: C209
- Overview and Roadmap of the .NET Platform **Beth Massi** Room: RF-141
- Predicting the Future with Machine Learning **Jerry Kurata** Room: C102
- The Seif Project Continued **Douglas Crockford** Room: VPA-Theater
- The T in TDD: Test, Types, Tales **Mathias Brandewinder** Room: C101C

Lunch Starts by 12:15 PM

1:45 PM Saturday

- Angular 2 101: The Adventure Continues **Deborah Kurata** Room: R2-222
- Azure from the Command Line **Jeremy Foster** Room: RG-122
- Azure Management from any platform: Linux, OS X, and Windows **Jessica Deen** Room: C104
- Be a Better Interviewer: How to Interview Like Google (or not)-But Better! **Gayle Laakmann McDowell** Room: SC-127
- Choose the Right Concurrency Model in .NET **Riccardo Terrell** Room: C103
- Clean Code I - Best Practices **Theo Jungeblut** Room: S-160
- Functional Programming in JavaScript **Troy Miles** Room: Gullo II
- Hello Android - An Introduction to Android App Development **Joe Rowley** Room: RF-141
- Learning Go - Resources For New Go Programmers **Todd McLeod** Room: R1-302
- MongoDB First Steps **Nuri Halperin** Room: RE-311
- Simplify Your Life with Your Own IBM Watson Personal Assistant **Steven Chamberlin, Rakesh Ranjan, Nicholas Vargas** Room: S-140
- So your mom always wanted you to be an architect **Ron Kleinman** Room: C209
- The 5 things you need to know about the Cognitive Era! **Reggie Hutcherson** Room: VPA-Theater
- The nits and grits of Git - How Git really works **Ryan Michela** Room: C102
- Voice User Interface - Design & Development for Chatbots & IOT **Suyash Joshi** Room: C101B
- What's New in TypeScript? **Doris Chen** Room: RG-248
- Zen of Architecture **Juval Lowy** Room: S-150

3:30 PM Saturday

- Android Architecture, A Better Way **Joe Rowley** Room: RE-311
- Angular 2 First Look **Ward Bell** Room: S-150
- C++ GUI library & Documenting Source Code: CopperSpice & DoxyPress **Barbara Geller, Ansel Sermersheim** Room: C104
- Clean Code II - Dependency Injection **Theo Jungeblut** Room: S-160
- Comparison of Javascript (MV*) frameworks **Chander Dhall** Room: SC-127
- Concurring the Last IOT mile **Steve Mylroie** Room: C209
- Cracking the Coding Interview **Gayle Laakmann McDowell** Room: VPA-Theater
- Crunching through big data with MBrace, Azure and F# **Mathias Brandewinder** Room: C101B
- Entry Point Node **Jeremy Foster** Room: RG-122
- Extreme 'Fake It Till You Make It' **Llewellyn Falco** Room: RF-141
- Get Rid of Your Web Site's Love Handles For Good **Chris Love** Room: RG-248
- Getting Started with Data Science **Dave Nielsen** Room: Gullo II
- Programming Pearls of Go - How to write fast, beautiful Go code **Aaron Schlesinger** Room: R2-222
- Software Project Design **Juval Lowy** Room: S-140
- The Perfect Micro-Manager **Keith Aytch, Lena Tran** Room: C103
- Wackcoon Catching a predator with technology (node, IoT, Cog Services, git) **Daniel Egan** Room: C101C
- Web Programming with Go **Todd McLeod** Room: R1-302
- What is Python? **wesley chun** Room: C102

5:00 PM Saturday

- Accidentally Manager – A Survival Guide for First-Time Engineering Managers **Theo Jungeblut** Room: S-140
- Build Cross Platform Mobile Apps for iOS & Android with Xamarin & MvvmCross **Gilles de Bordeaux** , **Ishai Hachlili** Room: C102
- Caching web requests with Cacheonix Java Web cache **Slava Imeshev** Room: C104
- Docker Container Lifecycles – Problem or Opportunity? **Baruch Sadogursky** Room: Gullo II
- From 0 to Developer **Tracy Lee** Room: RG-122
- Hello? Is it me you're looking for... (Face and Voice Recognition) **Daniel Egan** Room: R1-302
- Identity as a Service - Modern Authentication with Azure **Clayton Peddy** Room: C101B
- Intro to NoSQL with Redis **Dave Nielsen** Room: VPA-Theater
- Land More Job Offers: 3 Massive Mistakes that Kill Developer Job Searches **Krishnan Rangachari** Room: RE-311
- Practical Performance Tips to Make Your Cross Platform Mobile Apps Faster **Doris Chen** Room: R2-222
- Recursion and Dynamic Programming for technical interviews **Soham Mehta** Room: SC-127
- Rock Your Apps With => 10 Things You Probably Aren't Doing **David McCarter** Room: S-160
- Running ASP.NET applications on the Google Cloud Platform **Jeffrey Rennie** Room: C103
- Scalability for Developers. Scaling to more than a billion hits a day. **Chander Dhall** Room: S-150
- Technology and Fashion awaken the Soul of the Shoe **Siamak Ashrafi** , **Elena Eberhard** Room: RF-141
- The Psychology of Developer Tools Usability (and lack thereof) **Sara Ford** Room: C209
- The Service Industry enters the Connected Car **Sharada Bose** Room: RG-248

Speakers and Volunteers Dinner (BBQ) At Gullo I Starting 6:15PM.
